## PROFILE

I recently completed an Associate's Degree of Applied Science in Interior Design and am eager to continue expanding my expertise in the field. I also hold a bachelor's degree in Mechanical Engineering, which has strengthened my technical precision and problem-solving approach to design. Skilled in 3D modeling and rendering concept designs, I have a proven ability to meet and exceed project deliverables under tight deadlines. Highly adaptable and quick to learn new tools and techniques, I am seeking a position that fosters creativity, collaboration, and ongoing professional growth.
